

Hannah Baker

I liked it when we were making the wraps because you could have a choice in whatever we wanted to put in them. You were allowed to taste them and chef Faye helped you sold them if you couldn't sell them properly.

I ^{had} never tried red cabbage before but thanks to chef Faye and Sarah I actually + absolutely loved it.

The carrots were really really nice I loved the cucumber and chef Faye made this delicious sauce with yogurt and mint leaves. How delicious!

I learnt how to make rainbow wraps. It is very important to eat lots of healthy food to do this just follow the eat well guide. It will show you what kind of things have carbohydrate in and lots more. Eat well!
